What Makes a Villager Popular?

By: Donasia Washington

Overview

Introduction

Exploration (EDA)

Model Comparison

Conclusion

Project Purpose

Goal

Find out if traits like species, personality, style, or color relate to popularity

Question

Which villagers are the most popular within the community?

Why

Explore the vast amount of villagers without meeting them in game

Data Dictionary

Variable	Type	Description
Name	Character	Villager's name
Species	Character	Animal species (35 unique types)
Gender	Character	Male or Female
Personality	Character	One of 8 personality archetypes
Hobby	Character	One of 6 hobby categories
Style 1	Character	Primary clothing style preference
Style 2	Character	Secondary clothing style preference
Color 1	Character	Primary associated color
Color 2	Character	Secondary associated color
Birthday	Character	In-game birthday (month-day)
Favorite Song	Character	Villager's preferred K.K. Slider song
tier	Integer	Community popularity tier (1 = most popular, 6 = least popular)
rank	Integer	Overall community rank (1 = most popular)

Exploratory Data Analysis

Top 15 Common Villager Species

There are more cat villagers than any other!

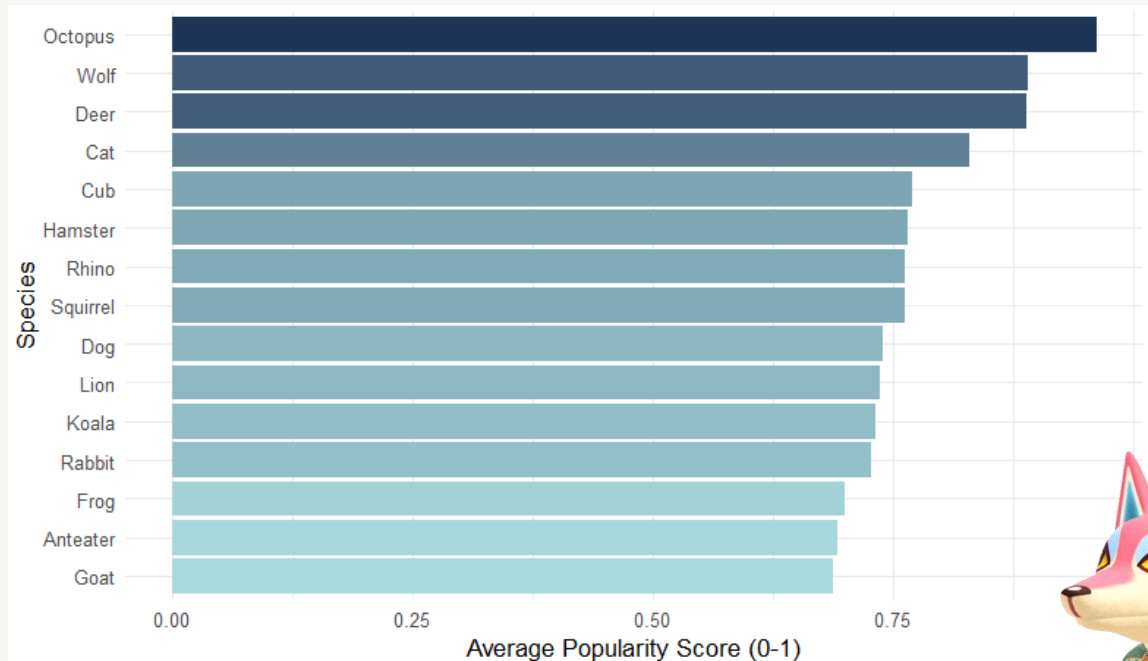

Exploratory Data Analysis

Octopus is # 1

Cats are 4th

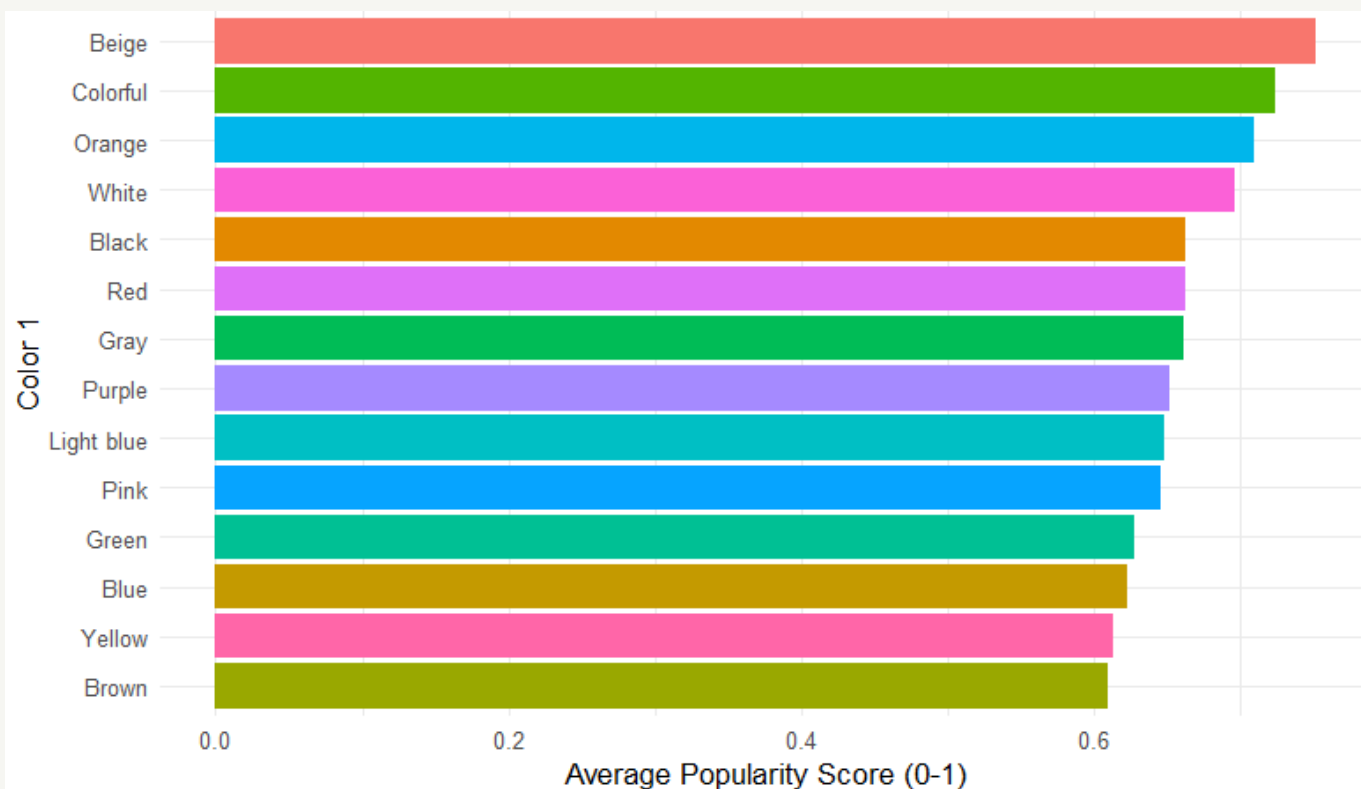

Top 15 Species by Popularity Score

Exploratory Data Analysis

Color by Average Popularity Score

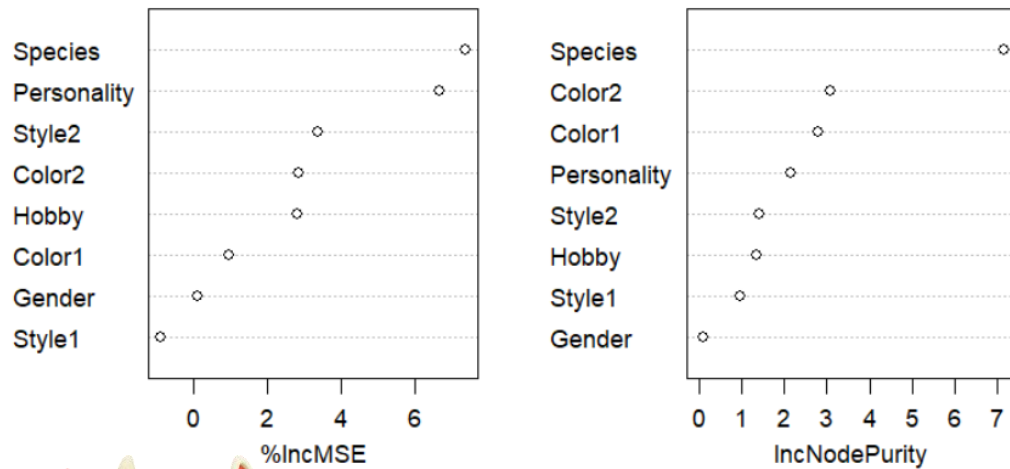

Beige is the most popular color

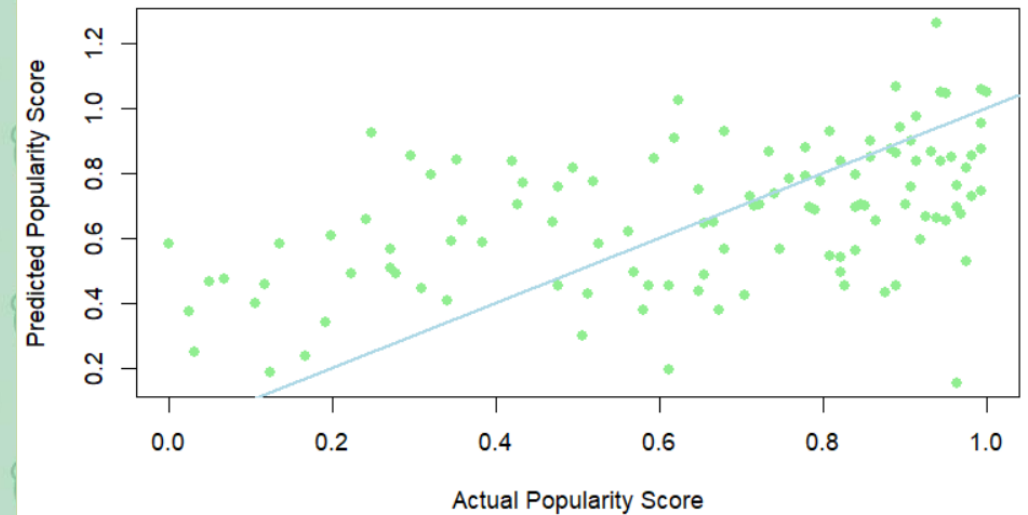

Model Comparison

What traits matter most to community popularity?

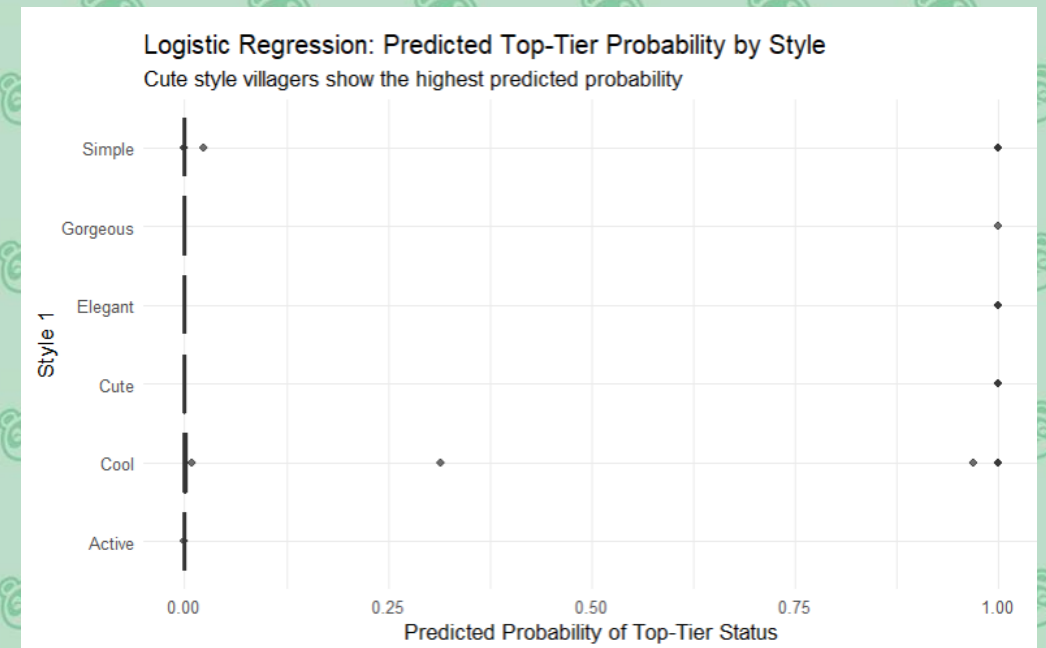

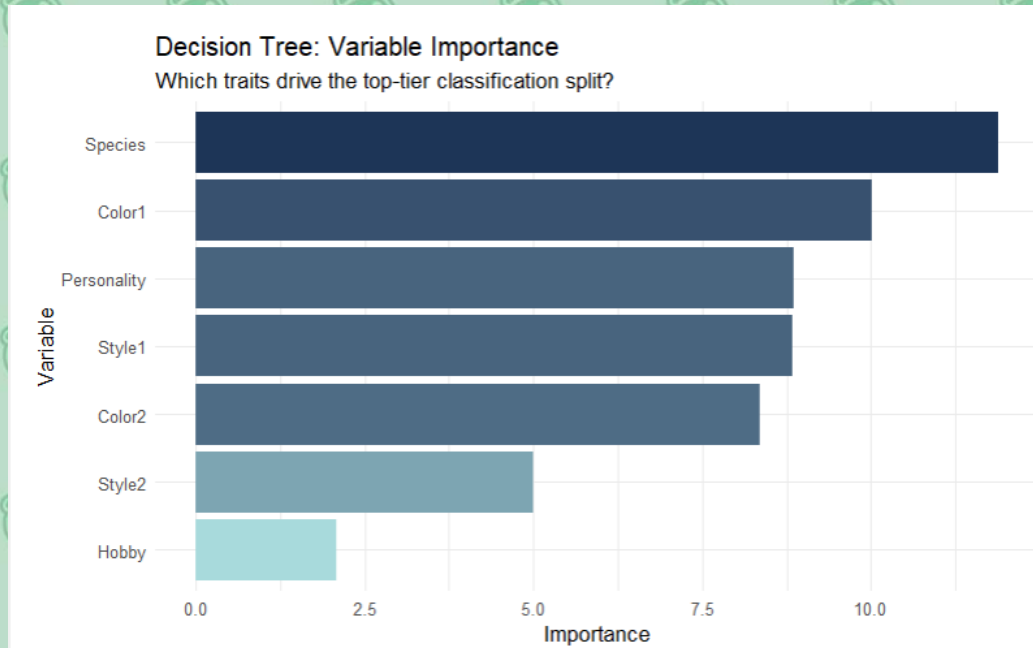

Linear Regression: Predicted vs. Actual

Model	R^2	RMSE	MAE
Linear Regression	0.0914	0.286	0.229
Random Forest	0.1568	0.255	0.215

Model Comparison (cont.)

Model	Accuracy	Sensitivity	Specificity
Decision Tree	0.9130	1.0000	0.0
Logistic Regression	0.8348	0.8762	0.4

Top Three Most Popular Villagers

Raymond

- Cat
- Tier 1 - Rank 1
- Smug

Marshal

- Squirrel
- Tier 1 - Rank 2
- Smug

Sherb

- Goat
- Tier 1 - Rank 4
- Lazy

Conclusion

Species is the strongest predictor for villagers

Aesthetic is important and the main color palette

Personality and hobby don't matter as much
